

Intelligas 100 series interlock

Gas interlock system

The Intelligas 100 series is the simplest, most economical system that we offer. It meets the requirements of BS 6173, and it's easy to install - even if you're not technically qualified. It's carefully designed and clearly labeled, and if you're having problems our 24-hour helpline is moments away.

- Available as a stand alone panel or supplied complete with air pressure switches
- Comprehensive fan, fire & emergency stop status indication
- Audible signal for failure & system ready
- Wipe clean fascia
- On board emergency stop button
- All connections on front panel, leaving the complete enclosure for cable entry
- Clearly-marked terminals for easy installation
- Fire alarm interlock
- Additional emergency stop buttons can be connected directly to the PCB
- 2 year guarantee

Interlocks provided:

- 2 x air pressure switch interlocks
- 2 x remote emergency stop terminals
- 1 x fire alarm interlock terminal
- On board emergency stop doubles as on/off button

Fascia specification (including fault reporting):

- Fascia, reverse printed wipe clean lithographic
- System on indicator
- Gas on indicator

Installation

The telephone technical service - provided without charge to Intelligas customers - will help you install your new system. Our staff are also able to supply technical advice, where possible, on any electrical system in your kitchen. Many existing customers have benefited enormously from our technical expertise, and we've fielded calls about the connection of fan speed controllers, invertors and other systems. We're here to help you maintain a safe and compliant kitchen.

Guarantee

Don't forget that your purchase is fully backed by our guarantee. Firstly, if you're unhappy with the system you can return it within 14 days for a full refund - no questions asked. If you're happy with the system, it is covered for 2 years against faulty parts or workmanship.

Please read our terms and conditions.
